"Always Wear Your Seat Belt"

The WonderGrove Kids want to go to the park. Chris' mom is driving the car. There are five (5) seatbelts in the car all together. Use the pictures below to answer the math questions.

1. Chris and his mom are in the car. How many people are in the car all together? _____

Are there enough seatbelts for each person to wear one? YES NO

2. If they stop to pick up Maria, how many people will be in the car all together? _____

Are there enough seatbelts for each person to wear one? YES NO

3. If they pick up Peter, Maria and Dee, how many people will be in the car all together? _____

Are there enough seatbelts for each person to wear one? YES NO

4. After they all go to the park, they drop off Peter.

Now how many people will be in the car all together? _____

Are there enough seatbelts for each person to wear one? YES NO
