

TOOLS FOR SCHOOL TOOLBOX CRAFT

1.G.1: Distinguish between defining attributes (e.g., triangles are closed and three-sided) versus non-defining attributes (e.g., color, orientation, overall size); build and draw shapes to possess defining attributes.

School supplies are like tools for school. Keep all your school tools in a box you decorate yourself and you'll always know right where they are!

Materials Needed:

- Crayons, colored pencils, or markers
- Scissors
- Glue
- Empty tissue box
- Construction paper
- “School tools” labels
- Markers, crayons or paint
- Optional: Stickers, glitter, other decorations

Steps to Success:

1. Assist students in carefully cutting off the top of the tissue box.
2. Have the students wrap the outside of the box with construction paper.
3. Have the students use glitter, markers, stickers, etc. to decorate your box!
4. Students may color and cut out the fun labels on the following page to use on their boxes.
5. Once the boxes are dry, instruct students to put their supplies in the box so they always know where they are.

Preparation:

- Gather the needed materials in an appropriate area.
