## "Keep Your Hands to Yourself"

1. Peter and Chris were having lunch. Chris got too close to Peter and knocked over his water by accident. Chris offered to share his water with Peter. Chris has 16 ounces of water in his bottle. He gave 8 ounces to Peter. How many ounces does Chris have left? Show your math in the box below.

2. Dee loves strawberries. Maria brought twenty to lunch. Dee asked if she could have some. Maria gave her six. How many does Maria have left? Show your math in the box below.

3. Chris and Maria are sharing an orange. Chris has five pieces and Maria has three. If the orange has ten slices total, how many do they have left to share? Show your math in the box below.
